-More example

## Connectivity and Participation

Table: **MAN**

Table: **WOMAN**

**Business rule:**

A man may marry only one woman and a woman may marry only one man

# Connectivity and Participation

Table: **MAN**

(6 Men)

Table: **WOMAN**

(5 Women)

marries

*So far, we have 3 marriages here*

Table	Max relationships	Min relationships
a man has	1	0
a woman has	1	0

Connectivity

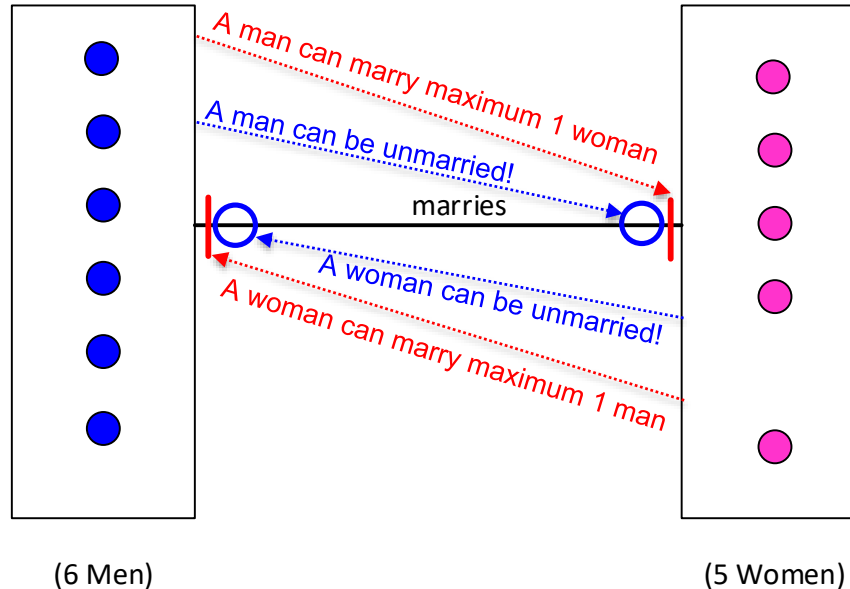

Participation

# Connectivity and Participation

Table: **MAN**

Table: **WOMAN**

# Connectivity and Participation

- Add a rule: No woman can be unmarried

Table: **MAN**

Table: **WOMAN**

(6 Men)

(5 Women)

Table: **MAN**

Table: **WOMAN**

(6 Men)

(5 Women)

*So, now we have 5 marriages here*

Table	Max relationships	Min relationships
a man has	1	0
a woman has	1	1 (mandatory)

# Entity Relationship Diagram (ERD)

# SIX (6) Steps to develop an ERD

- **Step 1:** Find all possible **entities** [look for **nouns**]
- **Step 2:** Draw entities with **attributes**, **add primary keys**
- **Step 3:** Find & show **relationships** [find **verbs**] one by one between entities
- **Step 4:** Find & show **connectivity** one by one between entities
- **Step 5:** Find & show **participation** one by one between entities
- **Step 6:** **Insert Foreign keys** and **Revise above Steps** 1 to 5 to ensure your ERD is complete

# ERD example (TWO entities): Library

A local library wants to computerise their book database. Business rules are as follows:

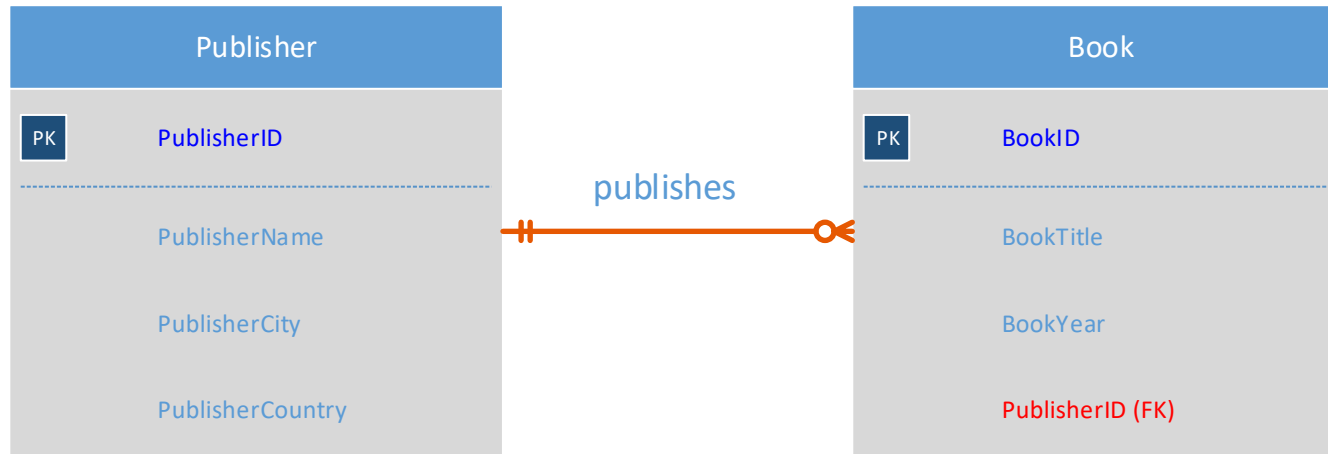

- Each book is published by one and only one publisher. A publisher may publish many books.
- For each book, the library needs to record book id, title, and year.
- Publisher number and name will also need to be stored.
- Books from some publishers may not be available in the library yet!

## Steps:

1. Entity
2. Attributes
3. Relationships
4. Connectivity
5. Participation
6. Foreign keys

# Library ERD (TWO entities)

- Insert PublisherID as a Foreign key in Book table
- Why BookID is not a FK in Publisher table?
- FK usually inserted in “Many side” to avoid data redundancy in “One side!”

Thank you.
